

## Water Equipment Buying Guide

Renting a water unit with Staples Business Advantage is a cost-effective solution that provides you with the best water filtration units in the industry-plus fast delivery, free installation, ongoing maintenance, filter changes, and repairs from our vetted experts.

### Water Equipment Solutions

Keep your teams hydrated with supreme filtration systems and water dispensers.

#### #1. Assessment

##### Plumbed Filtration Units

Get ice-cold or hot water at the click of a button with a plumbed water unit. Our freestanding and countertop filtration units allow you to specify your preferred filtration method, and including professional and regular service-all at no extra cost.

##### Floor stand

An ideal option when counter top space is limited.

##### Countertop

Our standard filtration option, countertop filtration models are great for larger breakrooms, waiting areas, and office spaces.

### Types of Filtration

- **Premium carbon filters** are our standard method of water filtration.
- **Reverse osmosis** is the recommended filtration option for areas with poor water quality.

The average person drinks **64 Ounces** of water a day

### Water bottle cooler solutions

#### Top load cooler

- A primary option that dispenses and cools or heats water from the top down.
- Standard option, easy to maintain, our top-load coolers seamlessly keep your staff hydrated.

#### Front load cooler

- Simple to maintain, load, and operate, front-load coolers dispense and temperature-control water.

### Types of water

- **Purified**: Enhanced with electrolytes for better hydration.
- **Spring**: Straight from the source with natural minerals.
- **Distilled**: The purest water option with zero minerals.

## #2. Installation and Delivery

When you choose to service your breakroom with Staples Business Advantage, you get free delivery and expert installation.

### #3. Ongoing Service

Regular equipment service is directly built into the foundation of our rental and subscription programs to ensure your office brewer remains in prime condition. From maintenance to troubleshooting, our technicians have a firm grasp on each brewer solution to expertly service all program equipment.
